interpersonal skills

EDUCATION

Apr 2022 — Present

Full Stack Software Developer, Code Institute

Dublin

Demonstrated proficiency in front-end and back-end web development through various projects, including:

- Developed front-end websites featuring memory card games with a timed component to enhance user engagement and experience.
- Designed and developed a front-end website with a back-end CRUD function to enable seamless ordering processes for restaurants.
- Architected an e-commerce B2C project allowing bookstore admins to have a full CRUD function of the store while users can securely wish or purchase desired books and track their order history.

Additionally, participated in a hackathon where my strong collaboration skills and technical contributions led to a second-place finish.

Oct 2010 — Aug 2014

BSc. Actuarial Science and Insurance, Joseph Ayo Babalola University

Ikeji-Arakeji, Osun State

- Graduated with high honours (1.6 grade point german standard)
